U.S. Army Global Cyber Center Mission Statement

Initially created as a provisional organization in March 2023, the U.S. Army Global Cyber Center operates under the United States Army Network Enterprise Technology Command where it plans and conducts continuous operations and defense of networks, as directed, in support of cyberspace operations within or relating to the Army Department of Defense Information Network in order to ensure United States and Coalition forces freedom of action within cyberspace and deny our adversaries the same.

U.S. Army Global Cyber Center Directorate Insignia

The insignia design was originally submitted by the United States Army Intelligence Center of Excellence Learning Innovation Branch on Fort Huachuca, Arizona, and later adopted by the United States Army Global Cyber Center (GCC).

The design features a symbolic earth silhouetted by the sun as it breaks above the horizon bringing to light the digital data transfer across its surface. This represents the global operations and cyber security service provider capabilities the GCC brings to the Warfighter. The orange signifies the directorate's primary function, which belongs to the United States Army Signal Corps. The MMXXIII represents the year, 2023, MG Christopher L. Eubank ordered the establishment of the GCC.

ARMY SONG

*March along, sing our song,
with the Army of the free
Count the brave, count the true,
who have fought to victory
We're the Army and proud of our name
We're the Army and proudly
proclaim*

*First to fight for the right,
And to build the Nation's might,
And The Army Goes Rolling Along
Proud of all we have done,
Fighting till the battle's won,
And the Army Goes Rolling Along.*

*Then it's Hi! Hi! Hey!
The Army's on its way.
Count off the cadence loud and strong
For where're we go,
You will always know that the Army Goes
Rolling Along.*

“Sentinels On the Watch”

The motto is representative of the GCC’s continuous operations to remain alert and watchful.
